Dear Peter Latak,

Our family and community in the beautiful hills, valleys and forests of Clearview Township, Ontario, Canada, have been working very hard for 2 years to stop the industrialization of our Rural Agricultural and Residential lands. All over the Province of Ontario communities are fighting on many 'fronts' to stop what we see as a corporate take-over of our rural lands. We feel that many poor farmers were exploited by many industrial wind corporations when to our shame, our Premier of Ontario opened the floodgates of Ontario by passing the Green Energy Act 2009. This Act took away our rights to have our Municipalities protect our rural lands. THIS IS NOT DEMOCRATIC. We have much faith in our peoples and much determination to stop this exploitation and economic disaster.

Our coalitions in Clearview and (many other Townships) were successful in getting our Mayors and Councils to unanimously vote for a Resolution to ask our Provincial Leaders for a 3rd party INDEPENDENT HEALTH STUDY. We were turned down by the Ontario Legislative Assembly at Queen's Park in TORONTO....TWICE! (October/2009 and April /2010). That in itself, woke up trusting and sleeping populations across CANADA. We now have political clout!

As you are probably aware, Canadians are very resourceful and resilient. Our National Anthem contains the words for the values we uphold as a Nation. ..OH CANADA...OUR HOME AND NATIVE LAND... TRUE PATRIOT LOVE IN ALL OUR SONS COMMAND. ...WITH GLOWING HEARTS WE SEE THEE RISE, OUR TRUE NORTH STRONG AND FREE AND STAND ON GUARD..OH CANADA...WE STAND ON GUARD FOR THEE.  
GOD KEEP OUR LAND, GLORIOUS AND FREE...OH CANADA WE STAND ON GUARD FOR THEE...OH CANADA WE STAND ON GUARD FOR THEE.

The whole western world is NOT happy having large scale industrial wind factories! Corporate developers use the word 'farm' as false marketing propaganda, along with their many other blatant misrepresentations, from false predictions of true energy production to their unscrupulous denial of serious health consequences to people, wildlife and nature. Also their denial of the pending economic disaster in Canada should they be allowed to succeed.

The millions of people in Ontario that have done their due diligence and researched the facts locally and globally are not "just **local** craziness" and WE HAVE become a worldwide crusade for a sane and really cleaner tomorrow.
