Dear people of the Orava Highlands,

Stand firm in your opposition to wind farms. There is nothing "free" about wind energy. The costs are very high for neighbors, the community and the environment. Our island of Vinalhaven has been divided and corrupted since the construction of three wind turbines. The promises that were given to us were false. Now it is too late for us. I urge you to work night and day to protect your sacred land, your communities and your history. Fight on!

Cheryl Lindgren, Vinalhaven, Maine USA
